

ProSites Ranked #1 Website Design Firm

The Business Press recognizes ProSites as the number one website design firm in the Inland Empire.

Temecula, CA July 11, 2011 -- The Business Press (affiliated with The Press-Enterprise newspaper) conducted extensive research and ranked 17 different website design companies from the Inland Empire. The Business Press recognized ProSites as the number one website design firm in the Inland Empire.

ProSites currently maintains over 5,200 websites and added over 1,400 new websites during 2010. That impressive growth also earned ProSites recognition on the Inc. 5000 list of America's Fastest-Growing Private Companies last year.

"We are honored to be named the top website design firm," remarked Lance McCollough, Founder and CEO of ProSites. "Website design is our passion. We attribute our success to our cutting-edge technology and superior customer service."

Founded in 2003, ProSites has become a leading provider of website design and Internet marketing services, focusing primarily on the needs of medical and dental professionals. In addition to creating state-of-the-art websites, ProSites utilizes advanced technology to stand out among the competition. ProSites created the first content management system (CMS) for medical and dental websites, which allows users to customize their websites with point and click ease.

The ProSites service extends far beyond professional website design. Their service includes jumpstart search engine optimization (SEO) and interactive patient-doctor features, serving to enhance current patient relationships and generate additional leads. ProSites is continuously providing their clients with upgrades and new features, free of charge.

ProSites offers their doctors a variety of service options aside from professional website design. Advanced search engine optimization (SEO), local search marketing, and social media marketing are additional services ProSites offers to help doctors improve their online marketing results.

About The Business Press and The Press-Enterprise

The Business Press (a weekly publication affiliated with The Press-Enterprise newspaper) was first published in 1995. The newspapers chronicle new business developments and keep tabs on the Inland Southern California economy. Readers turn to The Business Press and The Press-Enterprise for business news that otherwise would not be found from ordinary media outlets. For more information, visit www.pe.com.

About ProSites

ProSites, Inc. is the technology leader in website design and Internet marketing services specifically tailored to the needs of medical and dental professionals. The company's exclusive WebEngine Technology fully automates the creation of medical and dental websites that help doctors to market their practices on the Internet and attract new patients. In addition to engaging patient education content, ProSites websites include interactive features that help streamline patient communications and increase appointment requests. ProSites has received numerous endorsements, including all three of the largest state dental associations in America (CA, NY, and TX) for their excellence in dental website design. Headquartered in Temecula, California, ProSites is a privately-held corporation. For more information, or a free test drive, visit www.prosites.com or call (888) 932-3644.
